github.com/prateek1596 | prateeksportfolio1596.netlify.app | Chennai, India

EDUCATION

SRM Institute of Science and Technology (SRMIST)

B.Tech in Computer Science and Engineering — CGPA: 9.72/10 (up to 5th Semester)

Chennai, India

Aug 2023 – May 2027 (Expected)

Cambridge Court World School

Higher Secondary Certificate (Class XII)

Jaipur, India

Graduated 2022

EXPERIENCE

Software Engineering Intern

June 2025

The Yotribe

Lucknow, India

- Engineered full-stack features using React and Node.js, improving platform usability and reducing API response latency through optimised request handling
- Resolved production bugs across active sprint cycles; contributed to peer code reviews and Agile (Scrum) ceremonies within a cross-functional team

Internship Trainee

July 2024

Darby Telematics

Bengaluru, India

- Processed real-time GPS and CAN bus sensor data streams for IoT-based vehicle fleet tracking, improving data pipeline reliability
- Assisted in firmware testing and diagnosed hardware-software integration issues, reducing system downtime during test cycles

PROJECTS

ADMRI — Adaptive Digital Mental Health Risk Index | React, Node.js, PostgreSQL, TensorFlow.js, NLP |

- Built a clinician-facing paediatric mental health dashboard powered by a 4-model in-browser neural ensemble (TensorFlow.js) fusing PHQ-9, GAD-7, ISI, and SCARED scores with NLP sentiment analysis into a 0–100 risk score with Monte Carlo Dropout confidence intervals
- Implemented SHAP feature importance visualisations, longitudinal risk trajectories, automated email alerts on risk spikes, a CBT chatbot, and FHIR R4 export for EHR interoperability

DRMAS — Disaster Resource Management & Allocation | React, Node.js, MySQL, Leaflet.js |

- Developed a full-stack geospatial platform for real-time disaster resource allocation with interactive Leaflet.js maps, live asset tracking, and priority-based dispatch logic
- Designed a normalised MySQL schema optimised for concurrent write-heavy workloads during active incident response scenarios

Multi-Disease Prediction System | Python, Scikit-Learn, XGBoost, Streamlit |

- Trained and compared Random Forest, SVM, and XGBoost classifiers for diabetes, heart disease, and Parkinson's prediction with cross-validated evaluation metrics
- Deployed an interactive Streamlit diagnostic dashboard enabling real-time inference and model explanation for non-technical clinical users

ClinicSight — Clinic Management System | React, Node.js, Express, MySQL |

- Built a full-stack clinic platform with role-based dashboards for admins, doctors, and patients, including appointment scheduling and patient record management
- Secured all API routes with JWT authentication and refresh-token rotation; optimised MySQL queries to reduce dashboard load time under concurrent access

Jarvis — AI Voice Assistant | Python, NLP, SpeechRecognition, pyttsx3 |

- Built a modular Python voice assistant with speech recognition, TTS, and NLP-based intent parsing for task automation (web search, weather, Wikipedia, system control)
- Designed a command pipeline architecture separating intent classification from execution modules, enabling easy extensibility

TECHNICAL SKILLS

Languages: Python, Java, JavaScript (ES6+), TypeScript, SQL, C/C++, HTML5, CSS3

Web & Backend: React, Next.js, Node.js, Express.js, Spring Boot, PHP, REST APIs, JWT

AI & ML: TensorFlow, TensorFlow.js, PyTorch, Scikit-Learn, XGBoost, NLP, SHAP, MediaPipe, OpenCV

Databases: MySQL, PostgreSQL, MongoDB, Firebase, Supabase

DevOps & Cloud: Git, GitHub, Docker, Netlify, Vercel, AWS (Solutions Architect), Oracle Cloud

Desktop & Embedded: JavaFX, Arduino, Raspberry Pi

Tools: VS Code, IntelliJ IDEA, Postman, Figma, Canva

CERTIFICATIONS

AWS Certified Solutions Architect – Associate — Amazon Web Services

Oracle Cloud Infrastructure 2025 AI Foundations Associate — Oracle

Oracle Cloud Infrastructure 2025 Foundations Associate — Oracle

Java Programming Certification

Graphs Camp Participation Certificate
